DETAILED ACTION

EXAMINER'S AMENDMENT

Authorization for this examiner's amendment was given in a telephone interview with MR. HOLMAN on February 9, 2005.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: in claims; in claim 1, line 18; please delete "A" and insert -a-.

In claim 1, line 22, please delete "of target monitoring and d receives said" and insert *_of target monitoring and receives said_*.

Currently claims 1-11 are pending.

REASON FOR ALLOWANCE

As to claim 1, prior art fails to teach or fairly suggest a system for monitoring an object comprising a control unit, which retrieves said plurality of serial images stored in said and sends them to said speed calculation unit for the calculation of said memory module angular speed after receiving said command of target monitoring and receives said angle adjustment signal and sends to said monitor which is monitoring the target,

and controls said switch unit to change the monitoring status; in combination with other elements of independent claim 1.

As to claim 8, prior art fails to teach or fairly suggest a method for monitoring moving objects comprising step of; switch to a single monitor monitoring status when said range of the angle of monitoring of one of the two monitors lies outside said range of the overlapping angle of monitoring and the monitoring angle of another monitor switches to said to be monitored doubly angle from said to be monitored angle; in combination with other steps of independent claim 8.

Although, Yoshimatsu disclose an apparatus for receiving image information having a plurality of imaging devices following an object. But, the cited reference fails to teach or fairly suggest the method/system as specified in independent claims 1 and 8 in instant application.

Accordingly, claims 1-11 are in condition for allowance.

Now claims 1-11 are allowed.
